

DIANA PRINCE

Senior Backend & Cloud Engineer

diana.prince@example.com | (555) 019-3044 | Gateway City

PROFESSIONAL SUMMARY

Backend-focused Software Engineer with over 5 years of enterprise experience building high-throughput APIs, robust database architectures, and scalable cloud infrastructure. Expert in C#, .NET, Python, and multi-cloud deployment. Proven track record of optimizing system performance and modernizing legacy database setups.

TECHNICAL SKILLS

Core Languages:	C#, .NET Core, ASP.NET, Python, Java
Architecture & APIs:	REST, GraphQL, Microservices, Node.js
Databases:	SQL, SQL Server, PostgreSQL, MySQL, MongoDB
Cloud & Infrastructure:	AWS, Azure, GCP, Docker, Kubernetes, CI/CD pipelines, Git
Methodologies:	Agile, Scrum, TDD, Automated Testing, QA Practices

PROFESSIONAL EXPERIENCE

Senior Backend Engineer — Star Labs Technologies 2022 – Present

- Engineered scalable REST APIs in C# / .NET backed by SQL Server, implementing Docker containerization and automated CI/CD pipelines on AWS.
- Spearheaded API modernizations supporting core customer portals, directly contributing to a 40% load time reduction.
- Established automated unit testing and QA standards, increasing backend test coverage from 35% to 85%.
- Led technical sprint planning and mentored junior backend developers within an 8-person Agile engineering team.

Backend Software Engineer — Central City Digital 2019 – 2022

- Executed a zero-downtime database migration from legacy MySQL to PostgreSQL, enhancing data reliability and query performance.
- Designed scalable microservices using Python and Node.js deployed across hybrid GCP and Azure cloud environments.
- Authored automated scripts to streamline data processing workflows, saving significant operational overhead.

EDUCATION

B.S. in Computer Science — Central City University 2019

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Certified Scrum Master (CSM)
